

SRI LANKA TELECOM PLC (SLTMOBITEL)
Internal Affairs Unit (IAU)
Complaint & Concern Reporting Portal — Field Specification

Document Ref:	SLT-IAU-PORTAL-SPEC-001	Date:	April 2026
Prepared by:	Internal Affairs Unit (IAU) – SLTMobitel Group	Version:	1.0
Authority:	CEO Circular No. 23/2026 PS/PB/Circular/01/2025	Status:	Draft
Addressed to:	IT Department, Sri Lanka Telecom PLC	Classification:	CONFIDENTIAL

1. Purpose

This document specifies the complete field-level design for the SLTMobitel Internal Affairs Unit (IAU) Complaint and Concern Reporting Portal. It is intended to serve as the functional and content specification for the IT Department to design, develop, deploy, operate, and maintain the portal.

The portal is mandated under CEO's Circular No. 23/2026 (26 March 2026), which established the IAU in compliance with the Secretary to the President's Circular No. PS/PB/Circular/01/2025 as part of Sri Lanka's national initiative to strengthen public sector integrity. The portal will operate in coordination with CIABOC and within the framework of the Anti-Corruption Act, Proceeds of Crime Act, Public Property Act, and the Penal Code.

2. Portal Objectives

- Provide a secure, accessible, and structured channel for all stakeholders to report concerns of bribery, corruption, fraud, and malpractice to the IAU.
- Capture sufficient information at point of submission to enable the IAU to conduct a meaningful preliminary assessment.
- Support both named and anonymous reporting while encouraging identified submissions.
- Generate a unique reference number per submission for follow-up and audit trail purposes.
- Interface with the IAU's quarterly reporting obligations to the Government Audit Committee (GAC).

3. Portal Structure & Navigation

The portal shall be structured as a single multi-section web form presented sequentially. The following step flow is proposed:

1. Reporter details	2. Complaint details	3. Subject info	4. Evidence	5. Declaration	6. Confirmation
----------------------------	----------------------	-----------------	-------------	----------------	-----------------

Each section must be completed before advancing. A progress indicator shall be displayed at all times. Partial submissions shall be auto-saved with a session token to allow resumption within the

same session. On successful submission, the system shall generate and display a unique Complaint Reference Number (CRN) and, where an email address was provided, send an automated acknowledgement.

4. Access & Eligibility

The portal shall be accessible to:

- All employees of SLTMobitel Group (SLT, Mobitel, SLTS)
- Vendors, suppliers, contractors, and consultants engaged by SLTMobitel
- Shareholders, investors, and customers
- Any member of the general public

Access shall be available via:

- Direct URL — hosted on the SLTMobitel domain or a designated sub-domain
- QR Code — linked to the portal (separate IT requirement: SLT-IAU-IT-REQ-001)
- SLT Intranet — embedded link for internal staff

5. Field-Level Specification

The following tables define every data field to be captured across the five portal sections. Fields marked 'Yes' under Required must be completed before the form can be submitted.

Section 1 — Reporter Information

Field / Label	Input type	Values / Notes	Required
Submission type	Radio button	Options: Named / Anonymous	Yes ✓
Reporter category	Dropdown	Employee – SLT / Employee – Mobitel / Employee – SLTS / Vendor / Supplier / Contractor / Customer / Shareholder / Investor / General Public / Other	Yes ✓
Full name	Text input	Free text. Auto-disabled if Anonymous chosen.	Conditional
Employee / Staff ID	Text input	Free text. If applicable. Auto-disabled if Anonymous.	No
Division / Department	Text input	Free text. If applicable.	No
Designation	Text input	Free text. If applicable.	No
Contact email address	Email input	Validated email format. Used for CRN acknowledgement and follow-up. Auto-disabled if Anonymous.	Conditional
Contact telephone	Tel input	International format accepted. Auto-disabled if Anonymous.	No
Preferred contact method	Radio button	Options: Email / Phone / No contact preferred	No

Note: If Anonymous is selected, fields for name, ID, department, email, and telephone shall be automatically hidden/disabled. The system shall still generate a CRN displayed on-screen for the reporter to record.

Section 2 — Complaint / Concern Details

Field / Label	Input type	Values / Notes	Required
Complaint category	Dropdown	Bribery / Corruption / Fraud / Financial Misconduct / Abuse of Authority or Position / Misappropriation of Public or Company Property / Conflict of Interest / Procurement Irregularity / Falsification of Records / Harassment / Workplace Misconduct / Breach of Confidentiality / Non-compliance with Policy or Regulation / Other Malpractice	Yes ✓
Date(s) of alleged incident	Date picker	Single date or date range. If ongoing, capture most recent date. Future dates to be disallowed.	Yes ✓
Location / Division where incident occurred	Text input	Free text. E.g. Procurement Unit, Head Office, Mobitel Regional Office – Kandy.	Yes ✓
Frequency of occurrence	Dropdown	One-time incident / Repeated – periodic / Ongoing / continuous / Unknown	Yes ✓
Description of complaint	Textarea	Free text, min 50 characters. Prompt: 'Describe what occurred, when, where and who was involved.'	Yes ✓
How did you become aware?	Radio button	Direct witness / Informed by another party / Discovered through documents or records / Other	Yes ✓
Has this matter been reported previously?	Radio button	Yes / No	Yes ✓
If yes — to whom and what was the outcome?	Textarea	Conditionally shown if 'Yes' selected above. Free text.	Conditional

Section 3 — Subject(s) of the Complaint

Field / Label	Input type	Values / Notes	Required
Name(s) of person(s) involved	Text input	Free text. Multiple names separated by comma. State 'Unknown' if not known.	No

Field / Label	Input type	Values / Notes	Required
Designation / Role of subject(s)	Text input	Free text. E.g. DGM – Procurement.	No
Organisation of subject(s)	Dropdown	SLT / Mobitel / SLTS / External / Vendor / Unknown	No
Relationship of subject to reporter	Radio button	Superior / Manager / Peer / Colleague / Subordinate / External party / Unknown	No
Does the complaint involve senior management or any IAU member?	Radio button	Yes / No / Unsure. If 'Yes', system must flag for direct CIABOC escalation and display an on-screen notice.	Yes ✓
If yes — name(s) of senior personnel involved	Text input	Conditionally displayed. Free text.	Conditional

System behaviour note: Where the reporter indicates that IAU members or senior management are implicated, the submission shall be automatically routed for direct CIABOC escalation and flagged in the IAU case management system.

Section 4 — Supporting Evidence

Field / Label	Input type	Values / Notes	Required
Do you have supporting evidence?	Radio button	Yes / No	Yes ✓
Evidence type	Dropdown (multi-select)	Documents / Records / Email or Communication / Photographs / Videos / Witness testimony / Financial records / Other. Conditionally shown if 'Yes' selected.	Conditional
File upload	File upload	Accept: PDF, DOCX, JPG, PNG. Max 10 MB per file. Up to 5 files. Encrypted at rest. Accessible only to IAU panel.	No
Names of witness(es)	Text input	Free text. Multiple names separated by comma. Kept confidential by the IAU.	No
Additional information	Textarea	Any other context, related incidents, or supplementary information.	No

Section 5 — Declaration & Submission

Field / Label	Input type	Values / Notes	Required
Declaration statement	Read-only text block	'I hereby confirm that the information provided is, to the best of my knowledge, true and accurate. I understand that deliberate or malicious false reports are treated seriously and may result in disciplinary action under CEO's Circular No. 23/2026. I acknowledge that the IAU will treat this submission with strict confidentiality and that no retaliation will be taken against me for raising a genuine concern.'	N/A
Declaration checkbox 1	Checkbox	'I confirm the above declaration and consent to the IAU processing my submission for investigation purposes.' Must be ticked to enable Submit.	Yes ✓
Declaration checkbox 2	Checkbox	'I understand that this portal is monitored and all submissions are logged for audit purposes.' Must be ticked to enable Submit.	Yes ✓
CAPTCHA / bot prevention	CAPTCHA widget	Standard CAPTCHA (e.g. Google reCAPTCHA v3 or equivalent) to prevent automated submissions.	Yes ✓
Submit button	Button	Disabled until both checkboxes are ticked and CAPTCHA passed. Validates all required fields before submission.	N/A

6. Post-Submission Behaviour

6.1 Complaint Reference Number (CRN)

Upon successful submission, the system shall:

1. Generate a unique CRN in the format: IAU-YYYY-NNNNNN (e.g. IAU-2026-000001).
2. Display the CRN prominently on the confirmation screen with instruction to record it for follow-up.
3. Send an automated email acknowledgement to the reporter's provided email address (if given) containing the CRN, submission date/time, and IAU contact details.

6.2 Internal routing

All submissions shall be:

4. Logged in the IAU case management system with timestamp, CRN, and complaint category.
5. Encrypted at rest and accessible only to authorised IAU panel members.
6. Flagged automatically if the complaint involves senior management or IAU members for CIABOC escalation.
7. Retained in accordance with Sri Lanka's data protection requirements and the organisation's record management policy.

Field / Label	Input type	Values / Notes	Required
Declaration statement	Read-only text block	'I hereby confirm that the information provided is, to the best of my knowledge, true and accurate. I understand that deliberate or malicious false reports are treated seriously and may result in disciplinary action under CEO's Circular No. 23/2026. I acknowledge that the IAU will treat this submission with strict confidentiality and that no retaliation will be taken against me for raising a genuine concern.'	N/A
Declaration checkbox 1	Checkbox	'I confirm the above declaration and consent to the IAU processing my submission for investigation purposes.' Must be ticked to enable Submit.	Yes ✓
Declaration checkbox 2	Checkbox	'I understand that this portal is monitored and all submissions are logged for audit purposes.' Must be ticked to enable Submit.	Yes ✓
CAPTCHA / bot prevention	CAPTCHA widget	Standard CAPTCHA (e.g. Google reCAPTCHA v3 or equivalent) to prevent automated submissions.	Yes ✓
Submit button	Button	Disabled until both checkboxes are ticked and CAPTCHA passed. Validates all required fields before submission.	N/A

6. Post-Submission Behaviour

6.1 Complaint Reference Number (CRN)

Upon successful submission, the system shall:

1. Generate a unique CRN in the format: IAU-YYYY-NNNNNN (e.g. IAU-2026-000001).
2. Display the CRN prominently on the confirmation screen with instruction to record it for follow-up.
3. Send an automated email acknowledgement to the reporter's provided email address (if given) containing the CRN, submission date/time, and IAU contact details.

6.2 Internal routing

All submissions shall be:

4. Logged in the IAU case management system with timestamp, CRN, and complaint category.
5. Encrypted at rest and accessible only to authorised IAU panel members.
6. Flagged automatically if the complaint involves senior management or IAU members for CIABOC escalation.
7. Retained in accordance with Sri Lanka's data protection requirements and the organisation's record management policy.

7. System, Security & Operations Requirements

This section defines the technical security requirements alongside the ongoing operational and maintenance responsibilities of the IT Department for the IAU portal. Both sets of requirements are mandatory and form part of the IT Department's service commitment to the IAU.

7.1 Technical & Security Requirements

Category	Requirement	Responsible Party	Frequency / SLA
Hosting	Portal to be hosted on SLTMobitel domain or approved sub-domain. Must not rely on third-party public form services.	IT Department	Ongoing
Authentication	No login required for submission. Portal must be publicly accessible. Internal staff access may optionally use SSO for pre-population of employee fields only.	IT Department	At deployment
Data encryption	All form data and uploaded files must be encrypted in transit (TLS 1.2+) and at rest (AES-256 or equivalent).	IT Department	Ongoing
Anonymity protection	Anonymous submissions must not capture IP address, device fingerprint, or any metadata that could identify the reporter.	IT Department	Ongoing
Audit log	All submission events, access events, and file downloads from the case management system to be logged with timestamp and user ID.	IT Department	Ongoing
Availability	Portal must target 99.5% uptime. Scheduled maintenance windows to be communicated 48 hours in advance to the IAU.	IT Department	Ongoing / Monthly SLA report
Mobile responsiveness	Portal must be fully functional on Android and iOS mobile browsers. QR Code scans will direct users to mobile browsers.	IT Department	At deployment & after updates
Data retention	Submission data to be retained for a minimum of 7 years or as directed by the relevant legal framework, whichever is longer.	IT Department / IAU	Ongoing
Accessibility	Portal must meet WCAG 2.1 Level AA accessibility standards.	IT Department	At deployment & after updates

7.2 Portal Operations & Maintenance

The IT Department is responsible for the continuous operation and maintenance of the IAU portal from the date of go-live. The following sub-sections define the specific obligations.

7.2.1 Availability & Performance Monitoring

Category	Requirement	Responsible Party	Frequency / SLA
Uptime monitoring	Implement automated uptime monitoring (24x7) to detect portal outages. Alert the IAU immediately upon any unplanned downtime exceeding 15 minutes.	IT Department – Infrastructure	24x7 automated
Performance monitoring	Monitor page load times and form submission response times. Target: portal pages to load within 3 seconds on a standard mobile connection.	IT Department – Infrastructure	Continuous
Planned maintenance	Schedule maintenance windows outside of core business hours (08:00–18:00, Monday–Saturday). Notify the IAU at least 48 hours in advance. Display a maintenance notice on the portal during downtime.	IT Department	As required
Incident response	Establish an escalation path for portal incidents: IT Helpdesk → Infrastructure Team → IT Head → IAU notification. Critical incidents (data breach, portal compromise) to be escalated to the IAU and management within 1 hour.	IT Department – All levels	Per incident; critical = 1 hr SLA

7.2.2 Security Operations

Category	Requirement	Responsible Party	Frequency / SLA
Vulnerability scanning	Conduct automated vulnerability scans on the portal and its infrastructure. Report findings with remediation plan to the IAU.	IT Department – Security	Monthly
Penetration testing	Commission an independent penetration test of the portal.	IT Department / External vendor	Annually or after major changes
SSL/TLS certificate management	Monitor and renew SSL/TLS certificates before expiry. Certificate expiry must not cause portal downtime.	IT Department	Certificate renewal: min 30 days before expiry
Security patch management	Apply OS, web server, and application security patches promptly. Critical patches to be applied within 72 hours of release.	IT Department	Critical: 72 hrs; others: monthly cycle

Category	Requirement	Responsible Party	Frequency / SLA
Access control review	Review and audit the list of IT and IAU personnel with access to the portal back-end and case management system.	IT Department + IAU	Quarterly
Intrusion detection	Implement intrusion detection / prevention system (IDS/IPS) for the portal. Alert IT security team on suspicious activity patterns (e.g. bulk submissions, brute-force attempts).	IT Department – Security	Continuous / real-time alerts

7.2.3 Data Backup & Recovery

Category	Requirement	Responsible Party	Frequency / SLA
Automated backups	Perform automated daily backups of all portal data, submission records, uploaded files, and database. Backups to be encrypted and stored in a geographically separate location.	IT Department – Infrastructure	Daily (automated)
Backup verification	Verify backup integrity by performing a test restoration.	IT Department	Monthly
Disaster recovery (DR) plan	Maintain and test a Disaster Recovery Plan (DRP) for the portal. Recovery Time Objective (RTO): 4 hours. Recovery Point Objective (RPO): 24 hours.	IT Department	DR test: Bi-annually
Data archival	Archive submission records older than 2 years to secure cold storage while maintaining retrievability within 48 hours upon IAU request.	IT Department + IAU	Annually

7.2.4 Portal Content & Functional Maintenance

Category	Requirement	Responsible Party	Frequency / SLA
QR Code link integrity	Verify that the QR Code (SLT-IAU-IT-REQ-001) continues to resolve correctly to the portal URL. Alert the IAU immediately if the link breaks.	IT Department	Monthly automated check
Form field & dropdown updates	Update complaint categories, organisational units, or any dropdown values upon written request from the IAU. Changes to be deployed within 5 working days of written approval.	IT Department	On request by IAU

Category	Requirement	Responsible Party	Frequency / SLA
CRN sequence integrity	Monitor the CRN auto-generation sequence to ensure no duplicates or gaps occur. Report any anomalies to the IAU.	IT Department	Monthly audit
Email notification service	Monitor the automated email acknowledgement service to ensure CRN notification emails are delivered. Alert the IAU if delivery failure rate exceeds 5%.	IT Department	Continuous / weekly report
Browser & device compatibility	Test portal compatibility after any update across Chrome, Firefox, Safari, and Edge on Android, iOS, and Windows.	IT Department	After every release
Third-party component updates	Update all third-party libraries, frameworks, and plugins (including CAPTCHA service) to the latest stable versions.	IT Department	Monthly

7.2.5 Reporting to the IAU

Category	Requirement	Responsible Party	Frequency / SLA
Monthly operations report	Provide the IAU with a monthly portal operations report covering: uptime statistics, number of submissions received, CRN log, failed submissions, security incidents, and any maintenance activities performed.	IT Department	Monthly — by 5th of following month
Quarterly security summary	Provide a consolidated quarterly security summary covering vulnerability scan results, patch status, access control audit, and backup verification outcomes.	IT Department	Quarterly — aligned with IAU GAC reporting cycle
Incident reports	Submit a written incident report to the IAU for any unplanned outage exceeding 1 hour, security incident, or data anomaly, within 24 hours of resolution.	IT Department	Per incident
Annual review report	Provide an annual portal performance and security review report to support the IAU's year-end governance review.	IT Department	Annually — January each year
Anonymised scan analytics	Provide QR Code scan-count data (anonymised) to the IAU for inclusion in GAC quarterly reports.	IT Department	Quarterly

7.2.6 Change Management

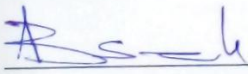

Category	Requirement	Responsible Party	Frequency / SLA
Change request process	All changes to the portal (functional, structural, or infrastructure) must follow the SLTMobitel IT Change Management process and receive written sign-off from the IAU before deployment.	IT Department + IAU	Per change
Version control	Maintain version control for all portal code, configuration, and database schema changes. Change log to be shared with the IAU upon request.	IT Department	Ongoing
User acceptance testing (UAT)	Any significant change (new feature, redesign, or major update) must undergo UAT with the IAU before go-live. A minimum of 5 working days to be allocated for UAT.	IT Department + IAU	Per major release
Rollback capability	Maintain the ability to roll back any release to the previous stable version within 2 hours in the event of a post-deployment defect.	IT Department	Per release

8. Authorisation & Sign-Off

This specification is raised by the Internal Affairs Unit under authority of CEO's Circular No. 23/2026. Development, deployment, and ongoing operation of the portal require sign-off from the IAU prior to User Acceptance Testing (UAT) and go-live.
